lifetime warranty*

easy installation

highly cost effective

from home to heavy industry

never needs replacing

we design and manufacture.
if you have a unique application,
we can create a custom solution

"After 12 months operation I can say this is truly a marvellous time and money saving device."

"After talking to engineers at the hospital who had one of these units on the boilers I installed mine (at home). It took a few weeks to clean the calcium build-up from the pipes and the results were astonishing."

"we use a lot less detergent and get excellent results"

"efficiency is now at 100% with no chemicals needed to treat the water"

"a product that actually works"

HARDWATER

PROBLEMS THAT AFFECT YOU

from coffee machines to caravans, plumbing to pools & pumps, dishwashers to hot water systems, wherever water is used you will experience...

- increased maintenance costs
- premature replacement costs
- decreased efficiency
- increased energy use
- increased time & cost of cleaning
- health & quality of life issues

it is a growing global problem for industry, mining, business, agriculture **and even you at home...**

there is only one perfect solution

www.softerwaterconditioners.com

home - a healthier, happier life

- spend less time cleaning with less water spots and easier-to-remove water stains and residue
- use less cleaners, detergents, rinse-aid, washing powder, softeners etc
- enjoy softer towels & clothes
- softer hair, use less soap & shampoo, less skin itch

caravans, rv's & motorhomes

- protect your investment - most caravan sites have very hard water which can seriously affect your hot water system, pipes, dishwasher, washing machine and taps
- enjoy more time on holiday and less time cleaning
- avoid the nightmare of costly breakdowns in remote locations

mining & heavy industry

- reduce downtime and all costs associated with maintenance, repair, replacement
- increase productivity and equipment life
- mine dewatering, drill rigs etc
- any mining application that uses hard water, ground water or even hyper saline water

showers, plumbing & hot water

- remove and prevent costly and destructive scale build up in water pipes
- reduce blockage and deterioration of all tapware, plumbing and showerheads
- your hot water system will be more efficient, need less maintenance & will last much longer

swimming pools

- cleaning your pool (and keeping it clean) will be easier than ever before!
- improve chemical performance and run a more efficient system
- reduce maintenance and part replacement costs
- enjoy softer swimming water
- reduce calcium build-up and black spot

irrigation, hydroponics, agriculture

- irrigated crops will thrive, not just survive - even in sub-standard water!
- enhance results in salt or iron affected water
- reduce maintenance and replacement costs of pumps and irrigation systems
- less water run-off and better soil penetration

appliance protection & efficiency

- every appliance that uses water will last longer, use less energy and require less maintenance - this includes...
- dishwashers, kettles, coffee machines, washing machines, evaporative coolers, steam cleaners and spa baths
- dishes will be shinier and clothes will be softer - with less rinse-aid and softeners

commercial applications

- any commercial appliance that uses water will last longer, work better, use less energy and require less maintenance. this includes...
- commercial dishwashers & laundry systems, cooling towers, boilers, hospitality, car washers - any water carrying system!

custom solutions
